

Jindal Films Europe Brindisi **QUALITY POLICY AND PRODUCT SAFETY**

QUALITY POLICY

The management of Jindal Films Europe Brindisi is committed to providing to customers products that regularly meet expectations and that comply with what is documented in the technical specifications signed by both parties.

To fulfill this commitment, Jindal Films:

- Strives to clearly understand customer expectations and provides experienced staff to meet them
- Defines a continuous improvement process integrated into the Quality Management System (ISO9001:2015 standard and BRC issue 7 for Packaging Materials) to obtain increasingly better performance at the right price
- Provides honest, ethical, accurate and timely information that allows customers to make informed purchases
- Provides accurate and timely communications and deliveries to fulfill customer orders
- Promote the Quality Culture by Sharing Quality Incidents and the respective action plans with the entire plant population in order to increase awareness among the operating personnel and improve the quality level of the product released
- Shares the risks and opportunities with the various parties, the interested parties of our business, the stakeholders, through the sharing of CIPs
- Show openness towards customers by being available for visits and audits at the production site
- It operates in a more responsible way from an environmental point of view, guaranteeing (where required) the integration of raw materials of organic, circular and bio-circular origin in its supply chain of sustainable raw materials from an environmental, social and economic point of view, leading to the reduction of energy use and greenhouse gas emissions with a mass balance approach (ISCC+ standard)

A handwritten signature in black ink that reads "Dario Francot". The signature is written in a cursive, flowing style.

PRODUCT SAFETY POLICY

The management of Jindal Films Europe Brindisi ensures:

- Respect all laws and regulations applicable not only in the countries of the European community but in all countries where our film is sold (e.g. China, Asia, Canada, USA, Russia,....) and maintain all health, safety, environmental and hygiene certifications
- Identify and manage the risks associated with its products and not produce or sell products if this is not possible through correct design, correct practices and an appropriate level of safety for people and the environment
- Specify the necessary precautions in managing, transporting, using and disposing of its products and communicating the same to employees, customers and anyone who may be involved
- Include the identification and control of potential adverse health, safety and environmental effects as primary considerations in product design and development
- Promptly share information about product issues, as appropriate, with your employees, contractors, customers and government agencies.
- It is committed to producing in compliance with ISO 9001:2015 and Hygiene Standards BRC Issue 7 and through GMP
